He is to visit Canberra on CFA business incorporating work on behalf of CFV and Australian Footwear Retailers Cooperative.

12.iii Cooperative Federation of Australia

Council considered the request of the CFA for views on future plans.

No justification could be seen for a formal association with a trading organisation unless such organisation is a Federation service for Cooperatives.

It was agreed the present structure is valuable for building up a State Federation to ultimately strengthen the CFA. This structure could be developed by the appointment, as circumstances permit, of an extension officer to assist another deserving State along similar lines and also provide successor training.

Close liaison should be maintained with AFCUL in legislative matters. The development of a National Cooperative Finance Facility should follow the successful operation of such a facility at the State level.

Council recommended the organisation of a Planning Workshop for the CFA Council after sound preliminary preparation for such an exercise.

13. OTHER BUSINESS

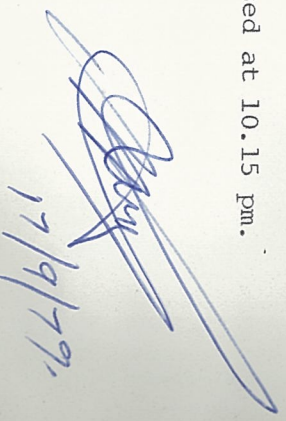

Following a report from Mr. Long on discussions with representatives of ACMAL, Council agreed a formal letter be written to the General Manager of ACMAL, outlining the services of the CFV and seeking reconsideration by the Board of ACMAL for membership and the advantages to be gained therefrom.
